

In-service exam preparation CAT B1 and B2

Aviation Technical Training GmbH (ATT) is a technical school for aviation technology approved by the German Federal Office of Civil Aeronautics (approval no. DE.147.0011). In order to give motivated and committed employees the opportunity to complete further training while working, ATT offers the following option:

Web-based exam preparation/online training

The modular course offers participants the opportunity to prepare for the PART 66 examination in theoretical fundamentals according to their commitment and learning speed. The modules can be completed individually by each participant. The exams take place in our training center in Saarbrücken. Before the exams, a review for exam preparation can be offered by arrangement.

The course materials are available either in German or in English. They are stored on the ATT learning platform. The course is activated on a module-by-module basis, whereby the participant can specify the order in which he or she would like to work through the modules. There is the possibility of online support while working through the modules. The modules can also be taken individually.

Aviation Technical Training

Content of the training course:

- ✈ M1 Mathematics
- ✈ M2 Physics
- ✈ M3 Electrical Fundamentals
- ✈ M4 Electronical Fundamentals
- ✈ M5 Digital techniques
- ✈ M6 Materials and hardware
- ✈ M7A Maintenance Practices
- ✈ M8 Basic Aerodynamics
- ✈ M9A Human Factors
- ✈ M10 Aviation Legislation
- ✈ M11A Turbine Aeroplane
Aerodynamics, Structures and
Systems
- ✈ M15 Gas Turbine Engine
- ✈ M17A Propeller

Additional modules

- ✈ M12 Helicopter Aerodynamics
Structures and Systems
- ✈ M16 Piston Engine

Objective of the course

- Exam preparation and completion of the modular exams for the CAT B1.1-B1.4 or CAT B2 or in the individual modules

Admission requirements:

- ✈ Employees in aeronautical engineering operations who wish to obtain an EASA Part 66 CAT B1 or CAT B2 AML and have a technical interest.
- ✈ Basic knowledge in technical English

Duration:

- ✈ Dependant on individual learning speed

Exams:

- ✈ The modular exams take place in our training center in Saarbrücken/Germany
- ✈ You have the possibility to book individual chargeable refresher sessions.
